EDUCATION

The University of British Columbia (UBC)

Ph.D. candidate in Electrical and Computer Engineering (GPA: 94%)

Advisor: Dr. Tim Salcudean

Thesis (proposed): Transcervical Ultrasound Guided Transoral Robotic Surgery

Vancouver, BC

Sep 2021 - present

Carnegie Mellon University (CMU)

M.S. in Robotics (GPA: 4.12/4.33)

Advisor: Dr. John Galeotti

Thesis: Ultrasound-based Needle Tracking and Lateral Manipulation Planning for Common Needle Steering

Pittsburgh, PA

Sep 2019 - Aug 2021

Peking University (PKU)

B.S. in Theoretical and Applied Mechanics (GPA: 3.78/4.0)

Thesis: Sensor Fusion for Attitude Measurement Based on Quaternions and Kalman Filter

Beijing, China

Sep 2015 - Jul 2019

University of California, Los Angeles (UCLA)

Cross-disciplinary Scholars (CSST) Summer Program (GPA: 4.0/4.0)

Los Angeles, CA

Jul 2018 - Sep 2018

RESEARCH EXPERIENCE

Robotics and Control Lab, The University of British Columbia

Graduate Research Assistant, Advisor: Dr. Tim Salcudean

Vancouver, BC

Sep 2021 - present

- Researching 3D ultrasound-MRI registration of oropharynx ultrasound.
- Researching augmented reality for the da Vinci surgical robot and developing the prototype of an US-guided AR system for transoral robotic surgery.
- Coordinating with clinicians for data collection and intraoperative study at Vancouver General Hospital.

Biomedical Image Guidance Lab, Carnegie Mellon University

Graduate Research Assistant, Advisor: Dr. John Galeotti

Pittsburgh, PA

Oct 2019 - Aug 2021

- Researched ultrasound-based needle tracking for autonomous robotic needle insertion.
- Developed an optical flow-based tissue motion segmentation algorithm to track hardly visible needles and an on-line needle tracking algorithm fusing ultrasound-based needle detection and robot kinematics to detect the needle under various visibility.
- Built a novel weighted-RANSAC real-time bent needle tracking algorithm.
- Studied using optical flow to improve deep learning-based lung ultrasound diagnosis and segmentation.

The Robotics Research Group, Peking University

Advisor: Dr. Qining Wang

Beijing, China

Sep 2017 - May 2019

- Designed a joint angle measurement algorithm using inertial sensors for swimming movement analysis
- Analyzed the movement of the knee joint in four swimming strokes and built machine learning models to classify swimming strokes using inertial sensor signals.
- Developed deep learning models to classify locomotion mode using signals from a strain gauge in a prosthesis and wrote on-board neural network training and classification algorithms in C/C++ for real-time locomotion mode recognition in robotic transtibial prostheses.

Biomechatronics Lab, University of California, Los Angeles

Advisor: Dr. Veronica J. Santos

Los Angeles, CA

Jul 2018 - Sep 2018

- Researched human hand motion primitives during search and retrieval of a buried object in the sand and used machine learning models to discover human hand motion patterns and to classify motion intentions.
- Calibrated an inertial measurement units network with 18 sensors and created an animation framework for displaying hand movement in Python.

WORK EXPERIENCE

Intuitive Surgical Inc.

Algorithms Engineering Intern

Sunnyvale, CA

May 2023 - Aug 2023

- Developed the workflow of new robotic tools and medical imaging techniques for lung biopsy and other procedures.
- Implemented C++ and Python software for sensor calibration and sensor fusion.
- Performed system integration for proof-of-concept demonstration and error analysis.
- Supported labs in robotic tool testing.

PRESENTATIONS

Ultrasound-based Needle Tracking and Lateral Manipulation Planning for Needle Steering

Master of Robotics Thesis Talk, Carnegie Mellon University, Pittsburgh, PA (Virtual)

Aug 2021

Presented as master degree speaking qualifier.

Human Hand Motion Primitives in Haptic Search and Retrieval of Buried Objects in Sandbox

UCLA CSST Research Program, Los Angeles, CA

Sep 2018

Presented in Mechanical and Aerospace Engineering Peer Seminar (awarded for Outstanding Research and Presentation) and a poster presentation.

ADDITIONAL TRAINING

Hamlyn Winter School on Surgical Imaging and Vision (Scholarship Recipient)

London, UK

Imperial College London

Dec 2022

One week of lectures on surgical imaging and a competition of project.

Medical Augmented Reality Summer School

Zürich, Switzerland (Virtual)

University of Balgrist

Aug 2021

Two weeks of lectures on medical AR/VR with a competition of projects in AR-assisted surgery.

TEACHING EXPERIENCE

- Teaching Assistant for undergraduate capstone UBC, 2023W
- Teaching Assistant for CPEN 441: Human Computer Interfaces in Engineering Design UBC, 2022W1
- Tutor for Mathematics in Engineering (College of Engineering) PKU, Spring 2019
- Tutor for Introduction to Computation (College of Engineering) PKU, Fall 2018

AWARDS

- Scholarship for Hamlyn Winter School on Surgical Imaging and Vision The Hamlyn Centre, 2022
- Faculty of Applied Science Graduate Award UBC, 2022
- President's Academic Excellence Initiative PhD Award UBC, 2021-2023
- International Tuition Award UBC, 2021-2023
- **2021 Four Year Doctoral Fellowship** UBC, 2021-2025
- **Excellent Graduate (top 17%)** PKU, 2019
- Outstanding Project in Undergraduate Student Research in College of Engineering PKU, 2019
- Outstanding Research and Presentation at the Mechanical and Aerospace Engineering Peer Seminar CSST, UCLA, 2018
- Meritorious Winner in Interdisciplinary Contest In Modeling COMAP, 2018
- Gong Qiaoyu Scholarship PKU, 2017, 2018
- Yang Fuqing and Wang Yangyuan Academician Scholarship PKU, 2016

SKILLS

Programming Systems	Python, Matlab, C++, C, OpenCV, PyTorch, ROS, dVRK, VTK
Tools	Windows, Linux
Languages	Git, LaTeX, Docker, 3D Slicer, ITK-SNAP, Autodesk Fusion 360, SolidWorks
Certifications	Mandarin, English, Cantonese
	Standard First Aid, CPR C and AED (Canadian Red Cross); TCPS 2: CORE

ACADEMIC SERVICES

- Reviewer: ISMR 2023, AE-CAI | CARE | OR 2.0 joint workshop 2023

LEADERSHIP AND OUTREACH

ECE Graduate Student Association, The University of British Columbia

VP Academic

May 2023 - present

- Propose and execute events targeted towards the professional growth of ECE graduate students.

Multidisciplinary Research Program in Medicine, The University of British Columbia

Undergraduate Mentorship

May 2022 - Aug 2022

- Advised two undergraduate students on a summer project supervised by a cross-faculty pair of researchers. Mentored and supported students in fulfilling their proposed research project.

Women in Engineering, The University of British Columbia

High School Mentorship

Sep 2021 - Mar 2022

- Provided inclusive and equitable access to information about engineering and supported a high school student as they navigate the university application process, and offered professional, academic, and interpersonal guidance for post-secondary transition.

The Robotics Institute, Carnegie Mellon University

Master Students Mentor

Sep 2020 - Dec 2020

- Provided advice on academic development for three first-year master students.

Cantonese Development Society, Peking University

Vice President & Publicity Department

Sep 2017- May 2018

- Managed the finance of the association.
- Organized Cantonese learning courses including student management and courses materials distribution.
- Designed publicity materials such as posters, tickets and souvenirs for multiple events.
